

TWISTED ROPES | ITSASPLUS

Twisted rope manufactured with Itsasplus fibres. This material owns a great stability when wet, low elongation and a low water absorption. This rope is highly valued for our customers because of its value for money.

Diameter	Weight (100m)	Breaking strength
6	1,90	770
8	3,45	1.360
10	5,05	2.035
12	7,35	2.900
14	9,80	3.095
16	13,20	4.910
18	17,25	6.305
20	20,05	7.600
22	24,50	8.905
24	30,00	10.490
26	34,50	12.320
28	41,50	13.910
30	46,00	16.070
32	53,00	17.540
36	68,00	22.080
40	83,00	26.860
44	101,00	31.780
48	119,50	37.180
52	140,50	43.195
56	163,50	49.380
60	186,50	56.680

CHARACTERISTICS

- **Material:** Itsasplus
- **Construction:** 3 or 4 strands
- Buoyancy
- Good abrasion resistance
- Low elongation
- Good stability when wet

*Dimensions are only for information purposes.

* Types of reference: 3 and 4 strands
